October 2009

Dear Parents.

October is here already! We have been having a lot of fun in our classroom. The children are doing better following directions, taking turns talking in circle time, and learning to share. I am very proud of them.

This month we will be learning about insects. If you have any books, captured bugs or other things of interest please send them in.

This month in Jesus time we will be learning about Moses and Daniel, and David. The children have been really enjoying our new early childhood chapels. We still attend chapel with the older children once a month. We have been having a lot of fun with puppets, Bible Big Books, and songs geared just for our little ones.

We will be learning letters "F.G.H and I" this month. If you want some thing fun to do at home, cut out pictures from magazines starting with these letters. Please bring them in to class!

Our class will collect canned fruits and vegetables for the food bank this month.
